

## ENTER RAFT WITH SIX POUNDER AND CREW IN ACTION

(Continued from page one)

Lamps supplied from their batteries. Plan Special Designs.

Each submarine will also bear a special novelty electrical design of either a naval or a historical character.

The Alert's entry will be illuminated by electric lights supplied by a battery, and at the stern of the raft will fly from a slanting navy flagpole a large American flag, the sole decoration.

Acting as "spotter" will be R. Murphy, chief quartermaster of the Alert. The gun captain will be J. M. Miller, chief gunner's mate; while D. O'Brien will be loader. He is chief master-at-arms. The gun-powder will be E. L. R. Whitely, seaman.

Those of the Alert's crew who have arranged the raft's lighting are G. A. French, first-class electrician; and T. W. Hardisty, second-class electrician. Those who mounted the gun and fitted out the raft are W. F. Davidson, ship's fitter, first-class; C. E. Wiggs, chief carpenter's mate; and E. V. Smith, carpenter's mate.

On the submarines the chief electricians of each have had charge of the illumination scheme on their boats. They are J. F. Cordes, K-3; P. Wallace, K-4; W. M. Young, K-7; and Frank Bidwell, K-8.

## AWAITING CABLE FROM DELEGATE ABOUT ACADEMY

Raymond Brown, secretary of the Chamber of Commerce, is awaiting a reply to a cable sent to Delegate Kuhio-Wednesday requesting news of the naval academy bill that the chamber asked to be introduced about two weeks ago.

"I suppose the bill is in course of preparation and Kuhio is waiting until he can send definite news before calling," said Mr. Brown today. "There are three bills for the location of an additional naval academy now in Congress and only one of them provides for its location in a coast state. Hawaii seems to the chamber the logical place for the location of a Pacific naval academy."

## COLLINS MAY ATTEMPT TO HOLD SUPERVISORS WITH MANOA ESTIMATE

Tonight's meeting of the board of supervisors is scheduled to be a short one, for the passing of payrolls, but City Engineer George M. Collins may disturb the plans of members who are planning to attend the directors' ball at the armory after the meeting. He has a map of the Manoa improvement district, with every benefited lot and its assessment shown on it, all ready to submit to the board. A program for the conduct of the road department for the rest of this fiscal period is under way today and may be ready for submission to the board tonight, together with a plan for the continued operation of the municipal quarry at a profit.

## PROHIBITION WRIT IN QUEEN'S CASE MONDAY

Monday will be return day in the supreme court in the matter of the writ of prohibition issued against petitioners and other parties in the equity suit brought by Delegate Kuhio against the trustees of the Liliuokalani Trust. The petitioners and their attorneys are cited to appear at 10 o'clock and show cause why the queen's motion to dismiss the suit should not be granted.

## NOTICE OF ELECTION OF OFFICERS.

At the Adjourned Annual Meeting of the Stockholders of the California Feed Co., Ltd., held Thursday, Feb. 24, 1916, the following named persons were elected to serve for the ensuing year:

T. J. King, President  
W. F. Dillingham, Vice-President  
T. V. King, Treasurer  
L. C. King, Secretary  
A. Lewis, Jr., Auditor  
E. C. Peters, Director

The above named officers also constituting the Board of Directors.

L. C. KING, Secretary.

## WALLS OF OLD ROYAL PALACE WILL ECHO SONGS OF DAYS OF MONARCHY

Hawaiian Nights Entertainment in Capitol Grounds Will Be Real Page From Past

Ukuleles will tinkle musically for the Hawaiian Nights entertainment, one of the prettiest of all the pretty ideas this 1916 Carnival has brought into being, when the curtain rises on the improvised stage in the capitol grounds this evening. It is to be a page of the older Hawaii not snatched from the fast enlivening past.

One Hundred and fifty of the sweet voices of Hawaiian singers will be used to produce effects such as have rarely been heard even in the island birthplace of native melody. The stage setting, historic, beautiful, will be on a spot associated with the brightest days of the Hawaiian monarchy—and with some of the dark days of that monarchy as well.

Not 40 feet from where the singers will be gathered is the old bungalow, built for one of the queens of Hawaii, and hard by is the palace reared by the most famous of all the kings, save

one. The committee has planned typical island decorations, hanging palms and island flowers will be used to adorn the stage and the surroundings.

But more than that is intended. The program suggests plainly enough what it is planned to do. A chorus of 100 voices, boys and girls from the Kamehameha schools and the Young People's League, will open the entertainment. Some idea of the different styles of the older Hawaiian music will be given in the second number, which will be by the Waikiki serenaders.

Then will follow the ukulele number. Twenty girls will sing and play. Then a quartet will sing and play the old Hawaiian love song, "Imi Au la Oe" (I Am Searching For Thee). The Young People's League will give this number. The Mossman's Club will give a song with ukulele accompaniment and the famous Waimea cowboys' song will follow. The Young People's League will sing this, also. The final number will be "In the Woods of Hawaii," by Charles E. King, with a chorus of 60 voices.

## Hawaii's Princess in Parade

Mrs. E. W. Campbell of Hawaii, formerly Miss Wilhelmina Weight, who was the Big Island princess in the Carnival parade

## TENYO MARU NOT DUE NOW UNTIL MARCH 20

Further delayed by going ashore and damaging her rudder on Shimoneski Reef, the T. K. K. liner Tenyo Maru will not arrive here from Yokohama until March 20, the shipping department of Castle & Cooke, Ltd., local agents for the line, announced today.

This will make the steamer two weeks behind her original schedule, which called for her to arrive here March 6 and sail March 7 for San Francisco. Delays prior to the latest accident made her a week late, so that she was not expected before March 13. Now she will not arrive until March 20, sailing probably the next day for San Francisco.

## INCOME TAX PENALTY SURE TO CATCH MANY

Half of the tax will be assessed as a penalty on income tax returns made

after March 1, according to a warning issued today by J. F. Haley, collector of internal revenue. "Some of the largest estates in the territory have not yet made their returns," he declared. "Every year thousands of dollars in penalties have to be assessed by this office. I have no discretion in the matter, and all returns not made before the close of business Wednesday will have to bear the 50 per cent penalty."

James Scott, a clerk, shot and killed his fellow employee, Joseph Devine, in the general storehouse department of the League Island Navy Yard.

The United States Steel Corporation will start work this spring on a series of by-product coke ovens to cost \$15,000,000.

Practically all the corn-cob pipes used in America are produced by six factories, all of which are in Missouri. In Corbi sheets of paper pass for money—one sheet buys one quart of rice, or 20 sheets a piece of hemp cloth.

After several years of work the Pyrenees have been pierced by a tunnel that will link railroads in France and Spain.

The Japanese are now manufacturing yearly about \$5,000,000 worth of toys, of which 40 per cent are for exportation. Ontario's area is 407,262 square miles.

## MAKE BARRELS OF BAGASSE TO SHIP SUGAR IN

Clinton J. Hutchins Finds Material Fire and Odor-Proof; Will Avoid Leakage

Bagasse will be made into water-proof, fire-proof barrels on the plantations, sugar shipped to the refineries in them, and potash, made from the molasses now wasted, will come back to fertilize the soil and produce more cane, if the plans of Clinton J. Hutchins, promoter of the Mutual Telephone Company, go through.

Hutchins has a sample of the fiber-board, made from cane from the Ewa plantation, with him and everywhere he has exhibited it his plans have met with a cordial reception. Nail kegs, made from corn stalks, were filled with scrap iron and shipped all about the mainland and around the Horn by the American Steel & Wire Company and found to be almost indestructible.

Kegs Are Odor-Proof.

"I will ship a quantity of bagasse to the coast, have it made into barrels, filled with potash and shipped back here," declared Hutchins this afternoon. Then I will ship sugar to the coast in the same barrels and keep them going back and forth until they are worn out. They are absolutely sanitary, and gasoline and odor proof.

"Their use will stop leakage and breakage in shipping sugar, cut the cost of packing materially and will enable the planters to regulate their own supply of packages, eliminating the long waits for bags that sometimes occur."

Mr. Hutchins also has under way a plant to utilize the waste molasses, shipping it to the coast to be made into potash and alcohol.

## FORBES DENIED DIX RUMOR BUT SENT HIM WIRE

"Telegram to John Dix—\$125." This item appears in the expense account of Charles R. Forbes' trip to Washington. In a total of \$1450 it does not appear to be of importance.

But—A month or so ago an Albany, N. Y., paper ran a story saying that John A. Dix, former governor of New York, impoverished through stock speculation and with no source of income, had enlisted the aid of influential friends in Washington in seeking a position. According to the story Forbes had been appealed to by some of these friends and had promised to find a place for him with one of the sugar plantations at about \$3000 a year.

Forbes denied the truth of the story on his arrival here.

Another item in the expense account is for taxi hire to and from the residence of Senator O'Gorman of New York, a close friend of Dix, and in brackets is the explanation, "at the suggestion of Mr. Lane." Mr. Lane is a personal friend of Mr. Forbes and secretary of the interior.

The Japanese Foreign Office denied a report that Japan and England had signed a treaty recognizing Japan's superior right in the Far East.

## ABOUT 300,000 BABIES DIE BEFORE ONE YEAR

The Census Bureau estimates that 300,000 babies died in this country last year before the age of one year, and it is stated that one-half of these deaths were needless if all mothers were strong and infants were breast-fed.

Expectant mothers should strive to increase their strength with the strength-building fats in Scott's Emulsion which improves the blood, suppresses nervousness, aids the quality of milk, and feeds the very life cells.

Physicians prescribe Scott's Emulsion; it is doubly important during nursing. No alcohol. Every druggist has it. Insist on Scott's—the white-food medicine. No advanced prices. Scott & Bowne, Bloomfield, N. J. 15-27

## GETS READY FOR MARCH CAMPAIGN OF ADVERTISING

With its big spring advertising campaign close upon them, the Hawaii Promotion Committee has now dropped the Carnival boom and is swinging into line to take up the new work.

"We are starting a big campaign now to make it known over the mainland that Honolulu is an ideal summer resort for tourists as well as a haven safe from wintry winds," said Secretary A. P. Taylor this morning.

"We figure that as soon as the campaign is opened, there will be a splendid opportunity for some of the big yacht owners of the Atlantic coast to cruise in Pacific waters, and we intend to start an advertising campaign soon with Honolulu as a yacht owner's paradise, the center of the idea."

Kamehameha Day, June 11, is already being advertised on the mainland, and various railway companies are making it one of the features of their folders, Taylor says, with emphasis on the day as a historical anniversary.

Oahu college, which celebrates its 75th anniversary this year, is also being advertised through the medium of the railway leaflet.

On March 1 the Promotion Committee's contract with the "Ask Mr. Foster" bureau of the mainland will begin, and it is expected that this will prove splendid advertising.

## LIEUT. OLNEY PLACE TO GET SHAFTER STATION

Orders have been received from the war department which assigns 1st Lieut. Olney Place, 13th Cavalry, to the Signal Corps, to take effect on March 15. He has been assigned to Field Company E, at Fort Shafter, and directed to proceed to Honolulu on the April transport. Lieut. Olney Place takes the place of Lieut. Robert R. Love, who sailed on the last transport for the mainland. Lieut. Love has received orders relieving him from the Signal Corps, to take effect on March 14, and after the expiration of his leave of absence he will be sent to his new cavalry regiment.
